

SWING BED PROGRAM

Healing with purpose. Recovery with compassion. Your journey home begins here.

What is Swing Bed Care?

Our swing bed program provides continued recovery for patients who are not yet ready to return home after illness, injury, or surgery. It offers skilled nursing, rehabilitation, and medical oversight within the hospital, a bridge between acute care and home.

WHY CHOOSE KDMC FOR SWING BED CARE?

- *Seamless transition from hospital to continued recovery*
- *24/7 skilled nursing support*
- *Individualized therapy plans tailored to each patient*
- *State-of-the-art medical resources, on-site if needed*
- *Compassionate care delivered with respect and dignity*

WHO BENEFITS FROM SWING BED?

Patients recovering from:

- *Joint replacement or orthopedic surgery*
- *Stroke or neurological event*
- *Pneumonia or other medical illness*
- *Wound care needs*
- *Infection requiring IV therapy*
- *General weakness or deconditioning*

WHAT TO EXPECT DURING YOUR STAY

- *Personalized care plan*
- *Daily therapy*
- *Physician oversight and nursing care*
- *Family involvement*
- *Comfortable rooms and meals*

SERVICES OFFERED MAY INCLUDE:

- *Physical, occupational, and speech therapy*
- *Medication management*
- *Pain control*
- *Respiratory and dietary support*
- *Case management and discharge planning*
